Accompanied by R. L. Harman, manager of the Thatcher Music Company, these visitors called at the Benson, Whittier, Lowell, Woodruff and B. Y. ## DOLLAR DAY MERCHANDISING EVENT PROVED WONDERFUL TRADE STIMULATOR HERE

### Hundreds of Citizens of Valley Took Advantage of Opportunity and Obtained Big Values For the Expenditure of Little Time and Money.

Yesterday was one of the biggest merchandising events ever held in Logan. Dollar Day had been advertised far and wide. Citizens from the extreme south end of the valley and from as far north as Gentile Valley, were here to take advantage of the many wonderful bargains offered by the Logan merchants.

On every hand, one could hear satisfied customers rejoicing about the values obtained for their dollar and the merchant was pleased because he had made a lasting friend and customer.

Values were given in every line of wearing apparel. Sale prices obtained in jewelry, confectionery, hardware, and in fact practically everything on the shelves and in the show cases of all the stores, inquiring shoppers were offered considerable off the list price. As a result the interurban cars were loaded during the late afternoon with people who in turn were carrying arms filled with bundles of merchandise.

Not least of the benefits derived from the day, visitors were given considerable entertainment by way of a band concert on the Tabernacle square, a dancing street carnival in the evening, all of which was free to those who took advantage of the opportunity.

## CITY TICKETS ARE GOOD TO PROVIDENCE

City tickets of the Ogden, Logan & Idaho Railway are good on the line between Logan and Providence. They can be purchased at the interurban office 6 for 25 cents, thus saving one ride out of every six. These tickets are convenient for the passenger and reduce difficulties when the cars are crowded.

Adv. 5-23

Considerable criticism is being heard for the way the Box Elder county road officials are neglecting the Brigham City canyon road. It is said a good road has been built to the Box Elder line through the Wellsville canyon but it appears the officials of the adjoining county prefer to make a good road up the valley north of Brigham instead of doing anything through the canyon. This is a matter that should be corrected.

## HENDRICKSON HAS PLANS FOR FACTORY

The state press is quoting T. R. Cutler, general manager of the Utah Idaho Sugar Company, as saying he has no knowledge of the new sugar factory proposed by John A. Hendrickson and others in Cache Valley, and that he has understood that the factory is to be constructed by the Amalgamated Sugar Company.

If Mr. Cutler is saying the things accredited to him, it would appear that he has forgotten the conversation that he had last week with Mr. Hendrickson and others.

Mr. Hendrickson has in his office at Logan, the plans for the West Cache Sugar Company as proposed by the manufacturers of sugar factories. He also has the names of the men who have subscribed for stock in the new concern. So from this it would seem that the Cache Valley farmers and the Hendrickson associates have gone too far with their proposition to lay down now.

## TREASURER IS BEING UNJUSTLY CRITICISED

There seems to be a disposition on the part of the shifty Democratic administration in the Cache County court house to saddle off on Treasurer George S. Daines, the responsibility for the middle which the assessor and the commissioners have gotten into on account of the faulty work of field assessors which has brought about all kinds of trouble from land owners and property owners who have been over assessed, under assessed, and some not assessed at all.

The Logan postmaster is criticizing the treasurer for the way the notices have been mailed out and those close to the situation claim that the postmaster is doing for political reasons, but Treasurer Daines seems to be equal to the occasion and when it really dawns upon the postmaster and his legion of followers that the Democratic assessor and his assistants are at fault a solar plexus will be delivered that will not lose its sting for some time to come.

It appears that the county assessor in making up his tax rolls overlooked the fact that it was his legal duty to have his field men obtain the street address of all persons assessed with property. And as a consequence the mail carriers in Logan City under the direction of the postmaster are unable to locate the addresses of the citizens of the community with the plain address Logan City, on the envelope.

While Mr. Daines sent out the notices, they have been sent out to those persons listed by the assessor and because the assessor has not done his duty, it is no fault of the treasurer's office, although a strained effort is being made by the postmaster and the other court house officials to fix the responsibility on him.

Sargent Meyers of the U. S. army will meet at the Club rooms between four and six o'clock on Thursday, Friday and Saturday of this week, all local members of the U. S. Cavalry and take their measurements for suits. Arrangements are being made in conjunction with the Commercial Club, to have a grand ball at the Auditorium on Decoration Day. The local organization will be known as Troop H of the First Utah Cavalry.

M. S. Eccles has returned from a business trip to Salt Lake and brings with him a new five passenger Packard automobile.

At 10 o'clock everyone gathered on the public square. First was the May Pole by twenty little girls; crowning of the queen, Miss Rhoda Sorensen, by her consort master Theo Whitney. Then all assembled in the meeting house where an interesting program was rendered. The afternoon sports consisted of children's dance, band concert, races, relay race between the north and the south ends of town. The baseball game between the Mendon and Paradise teams was fairly good. The Mendon team won the game. There was a basketball game in the evening between the Mendon Invincibles and the Watking Brothers. It was certainly an exciting game, but as usual the Mendon team won.

The dance after the game was a grand success. It certainly seemed fine to have a band playing for the dances.

## THE CODE OF MARCIA GRAY AT THE LYRIC

In time of great trouble when all the friends of prosperity have deserted and no one stands by with an offer of help, is when the sand in a man or the lack of it will show.

So it was with Harry Gray, the man who betrayed his trust and wrecked the Hercules Trust Co., in the Morosco photoplay of the present day city life of a supposedly millionaire financier. This film story, The Code of Marcia Gray, reveals what many a wife has only found out when the crash came.

Behind prison bars the man that his fashionable friends knew vanished and left a person that was a stranger even to his wife.

In this hour the wife rose to her true womanhood and gained that power that sustained her in the great crisis so impressively depicted in this great screen drama. This picture will be repeated at the Lyric theater tonight.
